We are excited to once again produce a student art show lasting through the month of March, designated as Arts Education Month. We invite you and your student to attend this event to showcase their work and view the work of over 100 other student artists from Tracy Unified School District. This year's event theme is "Functional Art." This event offers an opportunity to view outstanding works of art created by students in many mediums – from painting to graphic art to sculpture.

The visual arts give us a wonderful way to display how learning experiences can become in themselves a work of art. Our District Art Show is just one of many events in March that highlight this process and the importance of the visual and performing arts in public education.

We look forward to your participation and we congratulate your student on having their work chosen for this prestigious event.

Sincerely,

Dr. Brian Stephens
Superintendent
